EXPERIENCE

Junior Software Developer-Trainee, Novaware Systems Inc. – Quezon City *July 2026 - Present*

- Undergoing structured technical training to assist in building, testing, and maintaining full-stack web applications using PHP and CodeIgniter according to team development standards.

Full-Stack Web Development Intern, Comfac Corporation – Mandaluyong City *February - May 2026*

- Engineered 15+ RESTful API endpoints covering the full loan lifecycle from submission, approval, disbursement, and payment schedule generation.
- Normalized a multi-stage loan workflow database schema across 10 related tables, enforcing referential integrity and reducing duplicate-data errors.

Software Developer, Freelance *January 2026*

- Built the client-facing frontend for a lending platform, integrating REST APIs and implementing end-to-end form validation to eliminate invalid loan submissions.

SKILLS

Languages: Java, JavaScript, TypeScript, Python, PHP

Frameworks & Libraries: Spring Boot, React, Express, Laravel, FastAPI

Data & Infra: PostgreSQL, MySQL, MongoDB, Redis, Kafka, Docker, Kubernetes, Git

PROJECTS

JenVentory

Spring Boot, React, TypeScript, PostgreSQL

- Digitized a manual pen-and-paper tracking process into a full-stack POS, inventory, and per-customer debt management system for a small sari-sari store, eliminating manual reconciliation.

Civix

Spring Boot, Spring Cloud Gateway, Kafka, PostgreSQL, Spring AI

- Architected an event-driven civic reporting platform as 5 Spring Boot microservices, using Spring AI to classify reports and gate auto-routing behind a confidence threshold.
- Implemented PostGIS point-in-polygon geospatial routing against real barangay boundary data to resolve the correct department for each report automatically.

Pamantasan ng Lungsod ng Pasig Document Management System

Laravel, React, Inertia.js, Typescript, Flask, Python

- Led end-to-end development and deployment of a document management system, streamlining document submission routing, multi-stage approvals, and version control.
- Integrated a CNN-based signature verification model via a Flask API into the approval workflow, automating consistency checks that previously required manual review.

EDUCATION

Pamantasan ng Lungsod ng Pasig

Bachelor of Science in Information Technology

Pasig City

September 2023 - June 2026

Awards:

- President's & Dean's List Academic Achievement Awardee

Jose Rizal University

Bachelor of Science in Information Technology

Mandaluyong City

August 2022 - May 2023
