EXPERIENCE

Junior Software Developer-Trainee, Novaware Systems Inc. – Quezon City July 2026 - Present

PHP, CodeIgniter, JavaScript

- Undergoing structured technical training to assist in building, testing, and maintaining full-stack web applications using PHP and CodeIgniter according to team development standards.

Full-Stack Web Development Intern, Comfac Corporation – Mandaluyong City February - May 2026

Laravel, Next.js, TypeScript, MySQL

- Engineered 15+ RESTful API endpoints covering the full loan lifecycle from submission, approval, disbursement, and payment schedule generation.
- Normalized a multi-stage loan workflow database schema across 10 related tables, enforcing referential integrity and reducing duplicate-data errors.

Software Developer, Freelance

January 2026

React, TypeScript

- Built the client-facing frontend for a lending platform, integrating REST APIs and implementing end-to-end form validation to eliminate invalid loan submissions.

PROJECTS

QueryMesh github.com/querymesh

Spring Boot, React, TypeScript, Spring AI, PostgreSQL

- Built a governed ask-confirm assistant translating natural language into read-only SQL, validating and cost-estimating every LLM-generated query before execution.
- Enforced defense-in-depth query safety via AST-level SQL validation restricted to single read-only SELECTs, a semantic-layer allowlist, and EXPLAIN-based cost limits.

Pamantasan ng Lungsod ng Pasig Document Management System github.com/qmsopticore

Laravel, React, Inertia.js, Typescript, Flask, Python

- Led end-to-end development and deployment of a document management system, streamlining document submission routing, multi-stage approvals, and version control.
- Integrated a CNN-based signature verification model via a Flask API into the approval workflow, automating consistency checks that previously required manual review.

JenVentory github.com/jenventory

Spring Boot, React, TypeScript, PostgreSQL

- Digitized a manual pen-and-paper tracking process into a full-stack POS, inventory, and per-customer debt management system for a small sari-sari store, eliminating manual reconciliation.

EDUCATION

Pamantasan ng Lungsod ng Pasig Pasig City

Bachelor of Science in Information Technology

September 2023 - June 2026

Awards:

- President's & Dean's List Academic Achievement Awardee

SKILLS

Languages: JavaScript, TypeScript, Java, Python, PHP

Frameworks & Databases: React, Spring Boot, Laravel, Express, PostgreSQL, MySQL, Tailwind CSS

Tools & Platforms: Git, GitHub, Docker
